

Seminar

Open Access Publishing and the Open Access Policy of the JLU

Organizational details

Instructor: Florian Ruckelshausen
Date: February 13, 2016 from 16.15 h to 17.00 h
Location: Zweigbibliothek Natur- und Lebenswissenschaften (ZNL), Heinrich-Buff-Ring 58,
35392 Giessen, Südeingang, 5. Etage
ECTS: 1

Objective

Open Access means unrestricted online access to scholarly journal literature. The worldwide and free access to your articles ensures that many people can read and cite you. Many findings show that your citation count is increased compared to traditional (closed access) publishing. Open Access publishing becomes increasingly popular and there are several ways to implement it.

The course overviews these different ways to Open Access and presents how the JLU supports you financially with the Open Access publishing fund.

Content & Method

Content:

1. What is Open Access?
2. The scholarly publishing process
3. "Golden road" to Open Access and Open Access journals
4. Open Access mega journals (PLOS One, PeerJ)
5. "Green road" to Open Access and disciplinary / institutional repositories (e.g. RePEc, SSRN, SSOAR, GEB)
6. Open Access publishing fund and the Open Access policy of the JLU

Method: Lecture and discussion

Target Group & Course Language

Target Group: All students and scientists who want to publish their results and findings.

Course Language: English

Registration

By February 3 via Email to Hannes.Kaufmann@ggl.uni-giessen.de.
