

12th TRR81 PhD Mini-Symposium

“Advanced Methods in Chromatin and Gene Expression Research”

Monday, 08th of April 2019, 1 p.m.

Confirmed speakers:

Dr. Ignasi Forné

Biomedical Center Munich, LMU, Munich, Germany

Dr. Vanja Haberle

IMP – Research Institute of Molecular Pathology, Vienna, Austria

Dr. Daan Peric Hupkes

Netherlands Cancer Institute, Amsterdam, The Netherlands

Flora Lee

The Francis Crick Institute, London, United Kingdom

Florian Schmidt

Swiss Federal Institute of Technology, ETH Zurich, Basel, Switzerland

**Lecture hall III, lecture hall building Conradstraße 5, 35043 Marburg,
Room 00/66020 – next to the Central Medical Library**

Local organizers: Joanna Brühl, Jonathan Lenz, Igor Mačinković, Ikram Ullah (Brehm group)
Sponsoring: DFG - TRR81 “Chromatin Changes in Differentiation and Malignancies”

Program:

- 13:00 – 13:45: **Flora Lee**
“CLIP technologies for studies of protein-RNA and RNA-RNA interactions”
- 13:45 – 14:30: **Florian Schmidt**
“Transcriptional recording by CRISPR spacer acquisition from RNA”
- 14:30 – 15:15: **Dr. Daan Peric Hupkes**
“Studying chromatin by DamID”
- 15:15 – 15:45: **Coffee Break**
- 15:45 – 16:30: **Dr. Vanja Haberle**
“High-throughput reporter assays reveal regulatory properties of gene core promoters”
- 16:30 – 17:15: **Dr. Ignasi Forné**
“Analysis of histone modifications by LC-MS”
- 19:30: **Speakers` Dinner**
