

International Symposium

High-Performance Thin-Layer Chromatography

Centre de Congrès de Lyon © Nicolas Robin

LYON, 02nd - 04th July 2014

First circular announcement

We are enthusiastic to learn how many analysts are now confronted with situations where HPTLC is a suitable solution to their problems and is favored over better known and more widely used analytical methods. At the same time it is rather difficult nowadays to find a place for this "old technique" in the minds of opinion leaders, even if the need exists in analytical laboratories. This has arisen through inadequate information and training.

How to select the method; how to use HPTLC when it is described as a method of choice; avoidance of usual mistakes; which other samples may be well covered by this technique;... To address these issues an exchange of knowledge is foremost, from which sprang our motivation to hold again an international event with the Interlaken series spirit, last held in 1997. After Lyon 2003, Berlin 2006, Helsinki 2008, and Basel 2011, we are pleased to announce that the 4th International Symposium for High-Performance Thin-Layer Chromatography will be organized on 02nd - 04th July 2014, in the Congress Centre of Lyon, France. This new major issue will include a workshop, a symposium, and a manufacturers session.

The scientific program will feature invited keynote speakers, selected submitted lectures and poster presentations. Contributions are invited from all areas of high-performance thin-layer chromatography, but especially from colleagues working in the pharmaceutical, food, environmental and medical fields. Papers on theory, method development, validation, instrumental methods, hyphenated techniques, and quantitative applications in all areas of chemistry would be most welcome.

Deadlines for

- Abstract submission (oral and poster): March 1st 2014
- Final registration: May 30th 2014

The participation fee includes the full scientific program, and added to that, lunches, coffee breaks, the symposium dinner, and the social events.

- Industrial 600 €
- Academic 450 €
- Students 200 €

Reduction of 100 € with ISPS or CCCM membership.
