

„Genetic assessment of fertility“

16.10.2019 5pm (45')	Evaluation of "Big Data" – How to follow the new DFG guidelines	Christian Krippes
23.10.2019 5pm (45')	CRISPR/Cas9	Christiane Pleuger
30.10.2019 5pm (45')	Genome-wide analyses in male infertility: time for novel diagnostic tests	Frank Tüttelmann (Münster, Germany)
06.11.2019 5pm (45')	RNAseq	Stefan Günther (MPI, Bad Nauheim)
14.11.2019 Thursday!	GGL Graduation Ceremony	
20.11.2019 5pm (45')	Genetic disorders in infertile men: AZF deletions and congenital bilateral aplasia of vas deferentes (CBAVD)	Hans-Christian Schuppe
27.11.2019 3pm (45')	Steroidmetabolomics	Stefan Wudy or co-workers
04.12.2019 4pm (120')	IRTG Progress Meeting Part I	
11.12.2019 5pm (45')	Klinefelter Syndrome – lessons from an animal models with sexchromosomal aberrations	Joachim Wistuba (Münster, Germany)
18.12.2019 4pm (120')	IRTG Progress Meeting Part II	
15.01.2020 5pm (45')	Genetic evaluation of farm animals – basics	Sven König
22.01.2020 5pm (45')	ReproGenomics Viewer	Thomas Darde (Rennes, France)
29.01.2020 5pm (45')	Possibilities and Limitations of preimplantation genetic diagnostics (PID)	Hanns-Georg Klein (Munich, Germany)
05.02.2020 5pm (45')	Use of mouse models and cell cultures in fertility assessment	Joachim Geyer
12.02.2020 5pm (45')	Genetic evaluation of farm animals – a practical approach	Christine Wrenzycki

	Seminar room „Palmengarten“, Institute for Anatomy and Cell Biology, Aulweg 123
	Small lecture hall, Institute for Anatomy and Cell Biology, Aulweg 123

Practical courses

REGISTRATION REQUIRED!

7-10 th Oct 2019	Clinical Visits Limited attendance!	Urological Department
25-26 th Nov 2019, time tba	"Cell isolation and Flow cytometry"	Dr. Monika Fijak
	Venue: Institute for Anatomy and Cell Biology max participants: 4	
23 rd + 30 th Jan 2020, 9-12am	"Testicular histology and staging of spermatogenesis in humans and laboratory animals"	Prof. Dr. Martin Bergmann
	Venue: Institute for Veterinary Anatomy, Histology and Embryology max participants: 15
