

## LaMa-Kolloquium: Meet the Expert

# Prof. Dr. Ulrich Stimming

Newcastle University, UK

School of Natural and Environmental Sciences

**Freitag, 12. April 2019 - Hörsaal C 1**

neue Chemie, Heinrich-Buff-Ring 19, 35392 Gießen

**10:00 Uhr**            Molecular Processes in Intercalation  
and Redox Flow Batteries

**anschließend**       Ausführliche Diskussion bei Snacks & Drinks  
(Seminarraum B 58, neue Chemie)

*Prof. Ulrich Stimming has worked in the field of electrochemical energy storage for several decades. His research covers rechargeable batteries, fuel cells as well as supercapacitors. Beyond basic research, Prof. Stimming also investigates the social and economic aspects of renewable energy systems. Together with his current research group at Newcastle University as well as with his former co-workers at TU Munich, Research Center Jülich and Columbia University (New York), he has 300+ publications, 20,000+ citations and an h-factor of 70.*

Im Rahmen der Seminarreihe "**Meet the Expert**" laden wir Expert/inn/en ein, die lange Zeit auf einem Gebiet geforscht haben und somit sehr detailliert über die Entwicklung ihres Themengebietes berichten können. Im Anschluss an den Vortrag bleibt Zeit zum Austausch und zur ausführlichen Diskussion in lockerer Atmosphäre.
