Department of Architectural Science
Faculty of Engineering & Architectural Science

→ Benefits

Earn 7 ECTS university credits while learning about the cutting edge in sustainable buildings within an interdisciplinary and cultural exchange. Theory is combined with practical exercises and a hands-on approach.

→ Learn from the best

International experts from universities, research institutions, and companies share latest developments from research and practice.

→ Best practice at hand

Buildings in Vienna showing the application of sustainable theories are presented as part of the course.

→ Try it yourself

Enjoy Vienna while living in a passive house.

→ Organizers

OeAD student housing offers passive houses for active students and accommodates 2,500 international guests annually in energy-efficient student residences.

The **University of Natural Resources and Life Sciences, Vienna (BOKU)** teaches sustainable use of natural resources by connecting natural, engineering and economic sciences.

The **TU Wien** focuses on the relationship of energy to the environment in architecture, urban planning, as well as natural and engineering sciences.
