

NIDIT - International Teaching Training

Global Connections, Local Impact: Building
Educational Partnerships

The **NIDIT International Teaching Training Team** at Justus-Liebig-University Giessen (JLU) supports university lecturers, researchers, and student assistants from JLU and partner institutions. This is done through workshops, trainings, academic events, and the creation of teaching and learning materials in the areas of **training, practice, public relations, and networking**.

Our goals:

- ✓ Qualify participants for **effective digital and international teaching**
- ✓ Strengthen participants' competences and skills for success in **virtual and global education environments**
- ✓ Promote **active networking and partnership-building** among participants to support long-term collaboration.

Why Networking and Partnership?

- ✓ **At the heart of our work is fostering exchange, networking, and partnership** among national and international actors in Higher Education.
- ✓ **Digital international teaching** goes beyond just tools — it enables fully online or hybrid academic courses, workshops, and exchanges that connect international teachers, students, and participants.
- ✓ Our goal is to **build strong international networks and partnerships** that expand the university space beyond national borders, creating opportunities for long-term collaboration and innovation.

Our Team:

Anna Jaeger (JLU)
anna.jaeger@admin.uni-giessen.de
• Further training, counselling, exchange meetings
• Primary target group: Lecturers

Richard Vargas (JLU)
richard.vargas-lopez@admin.uni-giessen.de
• Further training, counselling, exchange meetings
• Tutor qualification
• Primary target group: English-speaking junior lecturers

Juliane Sommer (JLU)
juliane.sommer@admin.uni-giessen.de
• Further training, counselling
• Tutor qualification
• Primary target group: Junior lecturer
