

Study at faculty 09 – Winter Semester 2020/21

## Information Package 1 – Welcome!

### Digital start

Due to the pandemic situation, we will offer all classes of the first semester digitally. This applies to the following degree programmes:

M.Sc. Agrobiotechnology

M.Sc. Insect Biotechnology and Bioresources

M.Sc. Transition Management

Classes will start digitally on 2 November 2020. At the moment we expect the students to come to Giessen in January for the exams and practical trainings taking place in February/March.

You can find current information on the studies programs under the pandemic situation on our website: <https://www.uni-giessen.de/faculties/f09/news>

### Enrolment

In order to enrol via the JLU application portal you will receive an extra invitation. Please follow the given information. As soon as JLU has received your payment of the semester fees, you will be enrolled and you will receive a digital enrolment receipt by mail. Additionally, you will receive access to all necessary IT systems at the JLU, which you will need for course attendance. All passwords and links will be mailed at the beginning of October.

### Tuition fees

The payment of the tuition fee has to occur before enrolment by the registrar's office. Detailed information is given on

<https://www.uni-giessen.de/cms/org/admin/dez/b/5/studisek/semestercontributions>.

There you find the current semester fee and the necessary bank details of the JLU Giessen bank account. Please make sure that the transfer form shows your name, payment reference and your student ID.

Payment has to be carried out, otherwise enrolment will not be possible. There will be no refund of the amount for the semester ticket.

### Health insurance

As long as you are not in Germany, you do not need a German health insurance. Enrolment will be possible without proof that you hold a policy with a certified health insurance company.

You will need a health insurance when you come to Giessen in the beginning of next year. We will give you detailed information about this topic in our next e-mail.

### **Master Introduction Days**

This year we will offer an online introduction to all the international students new at our faculty. The introduction is planned for October. You will get the exact dates and information about the technical prerequisites in an email within the next weeks.
