Hi there,

We are reaching out as student board members for the International Association for Forensic Mental Health Services (IAFMHS). We are currently planning for our annual conference in Berlin, Germany from June 14 -16. The annual conference garners hundreds of attendants including students and licensed mental health professionals from around the world (for example, United States, Australia, Canada) who study or practice in the field of forensic psychology.

We have a wonderful conference planned but we can’t do it all without volunteers. Each year we are fortunate with an amazing team of volunteers who help with the variety of on-site operations, and the conference wouldn’t be such a success without them!

Volunteering at our events only requires a few hours (2-4 shifts of 3 hours, distributed over 3 days), and is a great way to meet the community, learn about how to run an event, and of course you also receive free registration to the conference! We are seeking volunteers to fill the following roles:

- **Registration Desk Volunteers**: Greet attendees and provide registration support. Create nametags, process registration forms, and replenish swag bags / materials (throughout)

- **Session Assistant Volunteers**: Session Assistants will be required to act as room monitors, audiovisual assistants, and runners (e.g., traffic control) for their respective sessions (throughout)

- **5K Fun Run Volunteers**: Distribute water and signs, direct runners, and collect trash before, during & after the run (Wednesday, June 15)

If interested, please fill out the [following form](#). Any additional questions can be sent to [students@iafmhs.org]

Sincerely,

The IAFMHS Student Board 2021-22
