

SDG^{nexus} Network Online Workshop on Sustainable Livestock Development in Central Asia

Friday 4 December 2020: 8.50 – 12.30

In order to stimulate exchange on research in the Central Asian livestock sector amongst members of the SDG Nexus Network (SDGNN), researchers active in this topic at the Centre for International Development and Environmental Research (ZEU) at the Justus Liebig University (JLU) will present recent research results, and Central Asian partners will introduce their current projects and future research plans in the sector. Exchange and discussion will help to identify synergies in terms of topics, concepts, data and insights, and contribute to the development of a research agenda on livestock within the SDGNN.

Agenda

8.50-9.00	Dr. Sarah Robinson	Welcome and Introduction
		Presentations by researchers at Justus Liebig University
9.00 - 9.30	Prof. Dr. Martin Petrick: SDGNN & JLU www.sdgnexus.net	Trade-offs amongst sustainable development goals in the Central Asian livestock sector: a review
9.30 -10.00	Kadyrbek Sultakeev: SUSADICA & JLU www.iamo.de/susadica	Impact of winter shocks on livestock assets in Kyrgyzstan
10.00-10.10	Break	
10.10 - 10.40	Alisher Kosimov: IPPAE & JLU www.uni-giessen.de/ippae	Dairy value chain assessment in North Tajikistan
10.40 - 11.10	Dr. Sarah Robinson: SDGNN www.sdgnexus.net ,	Livestock production systems in South East Kazakhstan
11.10-11.30	Dr. Vladimir Otrachshenko: SDGNN/JLU www.sdgnexus.net ,	Extreme weather and livestock assets vulnerability in Uzbekistan
11.30-11.40	Break	
11.40-12.10	Current and future research on livestock by Central Asian partners	
	Dr. Kanat Tilekeyev	University of Central Asia Institute for Public Policy and Administration: www.ucentralasia.org/Research/ippa/ ;
	Dr Roy Sidle	University of Central Asia, Mountain Societies Research Institute: www.ucentralasia.org/Research/msri
	Dr. Jabbar Alijanov	Tashkent Institute of Irrigation and Agricultural Mechanisation Engineers: www.tiame.uz
12.10-12.30	Discussion on synergies and collaboration
