

## ZEU Colloquium

New exchange format within ZEU

Following the recommendation of the ZEU Working Group “Communication”, ZEU offers a new format – the ZEU Colloquium. The main aim of the ZEU Colloquium is to provide a platform for knowledge sharing among ZEU members. The Colloquium shall allow them to meet regularly in order to engage in a constructive exchange on research and projects. It is hence expected that the ZEU Colloquium will:

- foster information exchange within the ZEU-group,
- help ZEU members to benefit from other disciplines’ perspectives on their own research,
- thus, strengthen the interdisciplinary work of ZEU.

The Working Group decided that the ZEU Colloquium will accommodate two formats: internal and external meetings.

Meeting format	Aim	Target audience	Announcement channels
<b>Internal meetings</b>	Share information related to current work in progress. Researchers are very welcome to share their ideas at any stage of their research. Main aim is to discuss research ideas and/or results and to receive constructive feedback and a multi-disciplinary perspective on the presented work.	ZEU members	Through ZEU internal channels (MS Teams/ Email)
<b>External meetings</b>	Alternative formats: <ul style="list-style-type: none"> <li>• Communicate information about ZEU projects to ZEU members and to a wider audience, also outside ZEU group. Within such meetings new projects can be announced and presented. Alternatively, important results of ZEU projects can be shared.</li> <li>• Presentations by external speakers on topics related to ZEU focus areas.</li> </ul>	ZEU members and all interested participants from outside of ZEU	Through ZEU internal channels (MS Teams/ Email), advertisement on ZEU Webpage, invitation email to ZEU members

The current schedule is designed in a way that makes it possible to present every week, Wednesdays, between 12:30 and 13:30 h (CET). We plan for hybrid meetings in **Seminar room S4, Zeughaus** and/or in **MS Teams/ZEU Members/ZEU Colloquium**.
