At many Faculties of JLU Giessen a module consists of the corresponding course. This makes it easy to allocate ECTS credits to a course since the number of ECTS credits allocated to the module as stated in the module description is the same as the number of ECTS credits allocated to the corresponding course.

At other Faculties a module usually consists of more than one course. ECTS credits are only given for passed modules consisting of several courses. Therefore, ECTS credits are not allocated to individual courses. However, to make it easier for you to assess the workload/ECTS credits for individual courses, we have prepared the following overview for you:
