3. Responsibilities of Participating Institutions and Students

Each institution shall undertake all those measures as are seen as reasonable to give maximum effect to this exchange program.

- i) Each institution agrees to accept and enrol exchange students as full-time, "non-award" students for their duration of their exchange. Exchange students will be exempt from the host institution's tuition fees.

- ii) Each exchange student will be provided with the same academic resources and support services that are available to all students at the host institution.

- iii) It is the responsibility of each exchange student to obtain official approval from his or her home institution for subjects taken at the host institution.

- iv) It is the responsibility of each exchange student to ensure that he or she obtains a copy of his or her official statement of results covering the subjects taken during the period of exchange. In addition, each host institution will forward a copy of the statement of results to the home institution's International Office.

- v) Exchange students will be subject to the rules and procedures as specified by the host institution for the academic period in which the student enrolls. The home institution will have responsibility for all matters concerning credit for subjects taken.

4. Numbers of Participants

- i) Subject to the availability of suitable candidates, each institution will send to the other up to three (3) students each academic year, during the period of the agreement. The period of study for an exchange will be for one or two semesters.

- ii) In principle, the exchange students will occur on a one for one basis. This number may vary in any given year, but over a fixed period of three years, the total number of students participating shall be balanced.

5. Selection and Enrolment of Students

It is expected that only highly motivated students of above-average academic quality will be selected to participate in an exchange program. The home institution will screen applications from its student body for exchange. Students, both undergraduate and post-graduate, are eligible to participate if they:

- i) have completed at least one year of study at their home institution;
- ii) are enrolled at their home and host institution for the full period of the exchange;
- iii) have an enrolment proposal, approved by their home Faculty and host institution, and are deemed academically qualified to successfully complete the nominated subjects at the host institution. Each institution will inform the relevant International Office of subject availability, including enrolment limitations and conditions.
- iv) have obtained agreement from their home Faculty, that upon successful completion of the subjects at the host institution, full credit will be granted towards the degree at their home institution. In some circumstances, a student may undertake a clinical or practical assignment as part of an exchange program; and
- v) have satisfied any language proficiency requirements of the host institution.

Each institution will send the other completed applications for their students at least sixteen (16) weeks before the beginning of the entry semester. The host institution reserves the right of final approval on the admission of a student and will, where appropriate, establish language proficiency standards.

6. Financial Responsibilities of Institutions

- tuition and related costs
- orientation program
- reports and Statement of Results
- reception/transportation of students on arrival

7. Financial Responsibilities of Exchange Students

Exchange students will be financially responsible for:

- travel to and from the host institution
- books, stationery, etc.
- travel documentation, visas, etc.

- health coverage relevant to the exchange institution and country
- personal travel within the host country

Each institution will ensure a medical insurance plan is available. The cost of insurance will be paid by the exchange student. The home institution shall satisfy itself that a candidate for exchange has the ability to meet all his or her financial responsibilities as detailed above.

8. Accommodation

The host institution does not guarantee accommodation on campus for incoming students. However, every effort will be made to assist students to obtain on-campus or off-campus accommodation within a reasonable distance from the campus. It is recognised that on-campus accommodation may not always be possible and students should be made aware of this possibility as soon as possible. Students will also be made aware that they are responsible for all costs associated with accommodation, including utility accounts and bond monies.

9. Exchange Student Families

It is not anticipated that spouses and dependents will accompany an exchange student. Where such arrangement is proposed, it is subject to the approval of the host institution on the understanding that all additional expenses and workload are the responsibility of the exchange student.

10. Faculty and Staff Exchanges

The two institutions agree in principle to the possibility of exchanges by General staff (Administrative and Technical) and Faculty members. The details of such arrangements will be negotiated at the appropriate time and will be governed by the institutional staffing rules and relevant approval processes. The participating institutions shall not be responsible for any private arrangements made by participating staff members concerning exchange of accommodation, vehicles, etc.
