1. **Modular Giessen Behaviour-based Evaluation Instrument for Feedback on Teaching. Questionnaire for Digital Teaching (MoGLi-D e)**

Please evaluate the class you attended by filling in the items below. All answers are voluntary and the analysis of the results will be anonymised. The instructor will receive the answers as a summarised report of all the results promptly. The purpose of the evaluations is to point to any potential changes an instructor may wish to consider.

When answering, please consider the (especially technical) framework conditions of the course. Thus, please do not compare the class with a face-to-face or on-campus course, but with something that is realistically possible under the current circumstances.

**Thank you for your feedback!**
